IT'S A BEAUTY

New, Revolutionary Sliding-Action Solid Stainless Steel "HELIX" WRENCH

with optional Gunmetal Finish

A masterpiece. Created by an engineer, designed by an artist. It's the greatest wrench you've ever seen. Any tool lover will thrill to its heft and its ingenious, one-hand sliding action that holds without slipping. Patented slide 'n' lock button on handle opens and closes jaws to any size up to one inch. You quickly sense the quality of solid brass and hardened steel gears and threads that move with the precision of a Swiss watch—simply by sliding. So fascinating is its action you'll hate to put it down. A **must** for any auto-buff, do-it-yourselfer or the perfect gift for the "man-who-has-everything". 8" long. Choice of gleaming natural satin finish or rich gunmetal finish. Solid stainless steel.
